ScoZinc Mining Ltd.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2020 (EXPRESSED IN CANADIAN DOLLARS) (UNAUDITED)

1. NATURE OF OPERATIONS AND GOING CONCERN

Scozinc Mining Ltd. (the “Company” or “ScoZinc”), and its wholly owned subsidiary Scozinc Limited (collectively, the “Group”) is engaged in base metals mining and related activities, including the exploration and evaluation of mineral property interests that are considered to have the potential for economic mineralization and development. The Company is a public company, which is listed on the TSX Venture Exchange and incorporated and domiciled in Canada. The address of its registered office is Purdy’s Wharf, 1959 Upper Water Street, Suite 1301, Nova Scotia, B3J 3N2.

The condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Group will continue in operation through the fiscal year and into the foreseeable future and will be able to realize assets and discharge its liabilities and commitments in the normal course of operations at the amounts stated in the consolidated financial statements.

The Company has not generated revenue from operations. The Company has incurred a net loss of \$ 700,372 for the six months ended June 30, 2020 (six months ended June 30, 2019 - \$500,144), and as of that date has an accumulated deficit of \$69,108,280 (December 31, 2019 - \$68,407,908). As at June 30, 2020, cash amounted to \$ 471,474 (December 31, 2019 - \$519,138) and the Company had a working capital deficiency of \$(297,654) (December 31, 2019 - working capital of \$198,556). The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders and other investors and/or generate operating profitability and positive cash flow. There can be no assurances that the Company will continue to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate financing, the Company will be required to curtail operations, and development activities and there would be significant uncertainty whether the Company would continue as a going concern and realize its assets and settle its liabilities and commitments in the normal course of business.

At June 30, 2020, the Company did not have sufficient cash on hand to meet all planned exploration, development, general expenses and property payments for the next twelve months. The Company plans to raise additional capital to further develop and explore its project, however the Company may increase or decrease expenditures as necessary to adjust to a changing capital market environment.

The above factors indicate the existence of material uncertainties that may cast significant doubt on the ability of the Company to continue as a going concern.

The condensed interim consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. If management is unsuccessful in securing capital, the Company’s assets may not be realized or its liabilities discharged at their carrying amounts and these differences could be material.

13. COMMITMENTS AND CONTINGENCIES

COVID-19

Due to the worldwide COVID-19 outbreak, material uncertainties may come into existence that could influence management's going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global metal prices;
- The severity and the length of potential measures taken by governments to manage the spread of the virus and their effect on labour availability and supply lines;
- Availability of essential supplies;
- Purchasing power of the Canadian dollar; and
- Ability to obtain funding.

At the date of the approval of these consolidated financial statements, the Canadian government has not introduced measures which impede the activities of the Company. Management believes the business will continue and accordingly, the current situation bears no impact on management's going concern assumption. However, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

14. BASIC AND DILUTED LOSS PER SHARE

Basic loss per share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share, which reflects the maximum possible dilution from the potential exercise of warrants and stock options, is the same as basic loss per share for the period ended. The effect of potential issuances of shares under options and warrants would be anti-dilutive for the six months ended June 30, 2020 and 2019 as they would decrease the loss per share, consequently the weighted average number of common shares outstanding for basic and diluted are the same.
